

## Studying IFRS but don't use it on a day-to-day basis?

HAT offer a 3-day course that covers UK financial reporting for privately owned companies. Designed to deal with the problem of studying IFRS for the professional qualifications but not using it for most (if not all) clients, the CA Course provides participants with a practical overview of UK GAAP.

The course covers common accounting and disclosure issues, including the requirements of:

- FRS 102
- Companies Act 2006
- Small and micro company exemptions, including FRS 102 Section 1A and FRS 105
- Common disclosure errors
- Options for filing financial statements with the registrar

Suitable for semi-senior level staff, the course is most appropriate if the attendee has passed the ICAEW Financial Accounting and Reporting paper (or equivalent for other bodies).

*"Very informative. Helps to understand things which are not covered by studies"*

*"Excellent. Andrew is very engaging and as knowledgeable as always"*

Recent attendees, HAT CA Course

The course is run in a central London location and during 2019 will run on the following dates:

- 13 – 15 February 2019
- 11 – 13 September 2019
