

An exciting new partnership

MyWorkpapers and HAT Group of Accountants have announced an agreement that will bring industry-leading HAT Group content to members using an innovative cloud-based platform from MyWorkpapers.

As part of the agreement, MyWorkpapers has been exclusively customised to include HAT Group content packs.

MyWorkpapers unlocks all the benefits of the cloud, including remote and multi-site working, business resilience and paperless working. It then combines these benefits with an innovative, intuitive and flexible platform, designed around the needs of users, facilitating effective oversight, collaboration, accountability and quality control.

Rich Neal, CEO at MyWorkpapers, said: *“HAT Group member firms are already able to benefit from a wide range of industry-leading content packs. The partnership we are announcing with HAT Group will enable member firms to draw even greater benefits from HAT Group content, including improved team collaboration, an audit trail of work done and substantial efficiency savings thanks to our innovative platform. We are delighted to be working with HAT Group to enhance the value it is already delivering to member firms.”*

Andrew Jarvis, Managing Director at HAT Group, added: *“We wanted to bring our content packs to the cloud in a way that maximises the benefit to our member firms and that is what the MyWorkpapers platform does. I know our members will value being able to access our content packs in this way, especially at a time when the need to be able to collaborate remotely is so clear.”*

MyWorkpapers’ innovative platform has recently seen it included on the shortlist in the Best Cloud Finance Solution category at the Cloud Excellence Awards 2020.
